career objective

As a recent graduate of computer science and a passion for Flutter development, I am eager to apply my theoretical knowledge and practical skills to contribute to dynamic mobile app projects. With a solid understanding of Dart programming and a hunger for continuous learning, I am excited to collaborate with a team of experienced developers to create innovative and user-centric applications that make a meaningful impact

Education

- **Faculty of Science in Computer Science and Information Technology** 2019 – 2023
 - Damanhour University, Damanhour, Egypt
 - Graduated: 2023
 - GPA: 3.4 (on a [4.0] scale)
 - Department: Computer Science

skills

General Concept :

- Object-Oriented Programming (OOP)
- Data structure and algorithms - Clean Code basic
- SOLID PRINCIPLES - Problem solving -Software Engineering - error handling

flutter :

- Proficient in Flutter framework and Dart programming language
- Familiarity with Localization, Firebase Integration and caching
- Strong understanding of mobile app architecture patterns (Bloc, Provider, MVC, clean architecture)
- Experience with state management solutions like Provider and Bloc
- Familiarity with RESTful APIs and asynchronous programming
- deal with different screen sizes - Version control using Git and GitHub
- Experience working with third-party libraries and APIs
- Cross-platform development for iOS and Android

Android(good knowledge) :

- Java. - Android

other :

- postman - figma

WORK EXPERIENCE

- **Flutter Developer at GDSC Damanhour University :** 2022 – 2023
 - Google Developer Student Clubs
 - Learning, Practicing and Instructing Flutter

- **freelance :** 2022 – 2023
 - Developed and maintained cross-platform mobile applications using Flutter.
 - Collaborated with UI/UX designers to implement pixel-perfect designs.
 - Implemented state management using bloc and provider for efficient app behavior.
 - Integrated RESTful APIs to fetch and display data in the app.

- Participated in code reviews and contributed to improving code quality.
- Resolved bugs and optimized app performance to deliver a smooth user experience.

Projects

1- graduation project (Waqty) :

- Description: This application contains several features so that end-to-end users can book online using the app and save their time.
- Technologies used: Flutter, Dart, PHP(backend).
- GitHub Repository: <https://github.com/Ahmedkhattab21/Wqty> 

2- Arabiti APP :

- Description: Application to buy and sell cars.
- Technologies used: Flutter, Dart.
- google play : <https://play.google.com/store/apps/details?id=com.omega.arbiti> 

3- E-Commerce APP :

- Description: A Flutter Ecommerce App for shopping and buying shirts
- Technologies used: Flutter, Dart.
- GitHub Repository: <https://github.com/Ahmedkhattab21/e-commerce> 

4- ToDo APP :

- Description: A simple Todo app built with Flutter to save your time
- Technologies used: Flutter, Dart.
- GitHub Repository: <https://github.com/Ahmedkhattab21/todoapp> 

5- O X Game Application :

- Description: XO game, play with the computer or with a friend.
- Technologies used: Flutter, Dart.
- GitHub Repository: <https://github.com/Ahmedkhattab21/X-O-game> 

Certificates

- **Android Mobile Development 60 hrs on iti :** 08/2022
course title :
 - Developing Application Using Java Programming.
 - Developing Application For Android Platform.
- **Complete Flutter Development Guide (Hassan Fulaih on Udemy) :**  09/2022
- **Flutter & Dart Development Course (Abdullah Mansour on Udemy) :**  12/2022
- **course Clean Architecture In Flutter (Ismail Elmogy on Udemy) :** 02/2023
